

ZALA

CARTRIDGES

FOR SPORTING AND HUNTING

ZALA

FAMILY TRADITIONS

ZALA ARMS produces more than 80 types of cartridges for shotguns.

The company is among the leaders on the Baltic market

Even before 1995 Alvydas Zala, founder of Zala Arms, having bought bullet casting moulds, started to make bullets for shotguns, first for himself and his friends, then for hunters of his small home-town and hunting clubs.

In 1998 he started a company manufacturing bullets. His sons Valdas came to work there as well. Overtime the firm gradually developed and grew introducing new technologies and expanding into new markets. Currently Valdas Zala has succeeded his father as the head of the company.

**QUALITY
IS THE MAIN FEATURE OF THE COMPANY**

ZALA ARMS is an ISO 9001:2015 certified company. Ammunition certified to the CIP standard. Cartridges are loaded by automatic machines made in Italy. They are thoroughly checked and tested at every cycle of production.

**ZALA ARMS
TODAY**

ZALA ARMS produces more than 80 types of cartridges for shotguns, pistols and sells more than 20 countries. The cartridges are created using the most famous shooters' recommendations and experience. ZALA ARMS sponsored shooters have represented their countries in various games and won countless shooting championships.

FAMILY TRADITIONS FROM 1998

Who wants to become a leader!
Who is the leader!
Who wants to remain a leader!

ZALA

ZALA SPORTING SLUGS

"Zala Sport" cartridges are the most popular among shooters. Great ballistic characteristics of a bullet derive from the unique, consisting of two parts, poppet obturator, manufactured from the highest quality high-pressure special technology polyethylene and leaded part manufactured using the method of cold pressing.

The weight of each bullet is checked by electronic scales therefore the dispersion of this bullet at the distance of 50 meters is only 3,5 cm. Low recoil. New cartridge "Target Tactical" loaded with 28 grams slug with a surficial treatment to avoid any lead residue inside the barrel and maintain extreme precision. High velocity, excellent precision, soft recoil. This cartridge is especially recommended for the automatic shotguns.

Cartridges name	Caliber	Shot Weight (g)	Shot Size	Velocity (V 2,5 m/s)	Cartridges (per pack)
"Training" (clean shot) New	12/70/12	28	slug	340	25
"Target Tactical" (clean shot) New	12/70/12	28	slug	400	25
"Target" (clean shot)	12/70/12	28	slug	340	25
"Zala Sport" (clean shot)	12/70/12	28	slug	330	25
"Zala Sport" (Clean shot)	16/70/08	28	slug	320	10
"Sfer"	36/76/16	4,5	slug	390	500

NEW SPORTING STEEL 28 G
NO. 7

ZALA SPORTING LINE

This line presents different solutions for the Compac and Sporting disciplines. Our cartridges specially designed for victories. The top quality composites: "Cheddite France" shell and primer, "Nobel Sport" gunpowder, four section container, recoil reducing high precision pressed pellets ensuring a precise and even distribution of pellets even in high velocity for the Trap, Skeet, Compac and Sporting disciplines..

The New cartridge "SPEED" recommended for long-range shooting. One of the main feature is the high velocity. The special hardened lead shots protected by nickel treatment guarantee perfect shot pattern with high residual energy. Our New cartridge "HIGH" is distinguished by its selected and perfectly balanced components. The result is reliable function, high velocity and excellent patterning with every shot. Extra hard lead 5 % antimonium.

"Sporting Line" cartridges for those who enjoy crashing clays targets !
